WORK EXPERIENCE

● Front end developer

10BE5, London, United Kingdom

November 2021 - Recent

10BE5 is the company who focused on building an NLP-powered platform that automates the drafting of capital markets disclosures and related processes. Their solutions automate substantive legal work. As I frontend developer, I got strong experience to work with **React, NextJS, Electron, Ant Design, async programming, Microsoft addins (taskpane)** and **Office API, Gitlab ci/cd, Docker** and so on. Along with technical experience, here I gained skills like **iteration planning, working with diagrams and visualizations** and dynamically working together with team members to implement new features, etc.

● Front end developer

PRONET MMC

July 2019 - November 2021

I worked on 2 main project during my journey in Pronet:

"Prospect SMB" is an ERP project which helps to manage businesses from one point. It is a module-based project which can be used separately. Each module of Prospect serves solutions in different areas like **Users, Relations, Warehouses, Trades, Finance, HR, Orders, Call center, Reports, Tasks, and so on**. The main stack in this project is **React / Laravel** and I have worked as a front-end developer. I get strong experience with **React, Redux, Ant Design, async API calls, and so on**, while working on this project.

"ProCall" is a web and desktop application that helps to handle and process calls in call centers. There are 5 call types Information, Suggestion, Order, Complaint, and Wrong are implemented and each call is stored in a database based on these types. Especially in the order type, customers can make orders with the help of customer service and this order will be processed in the Order module of the Prospect SMB project. These 2 projects run separately but are integrated. The main technologies which I used during the development of this project are **React, React-Async, Electron.js, jssip, context API, Ant Design, and so on**.

EDUCATION

● Bachelor of IT engineering

AZERBAIJAN STATE OIL AND INDUSTRY UNIVERSITY

2016-2020
